ROUND ABOUT NEW YORK.

Riuntes On the Current of Life in the Metropolis.

Although New York has 1,000 seers and secresses, prophets, palmists and similar lures for people with room to let upstairs. there is always abundant space for one more. Particularly timely is the coming of a wooer of spare wealth, possessed of a new thought which will be passed over to those who are shy on thoughts and modererately long on lucre. The new thought is aesthetic physical culture, a system of mental exercise which absolutely forbids physical exertion. All you are required to do is to think beautiful thoughts. Simple isn't it? Beautiful thoughts are sorely needed in all sections of the big city, particularly in the financial district, where men are earrying all kinds of luck charms in their pockets and neglecting aesthetic culture of the head. The proomter of the date for the presidency, has completed his cult needs only a ripe press agent to ac-

the plaintiff in the divorce suit of Eather Gwynne Carley aga'nst Benjamin, traveling salesman for a big commission house According to the complaint, Mrs. Carley and the children and servants went to mands. If an American ambassador is ex- Lakewood last winter and Carley went out to visit them once a week, "Polly," said Mrs. Carley's lawyer, "re-

the homemade article of enthusiasm for ley never stayed longer than a day with his family was because he had to feed the parrott.

"I believe," adds the wife, "this was but a subterfuge and that my husband was prompted by a different motive in giving us so little of his company.

"When we went to the country the parrot had a limited vocabulary. I was famillar with every word of it. But when we re turned honre the bird had acquired expressions which I had never heard it utter before and which could be accounted for on only one hypothesis."

The lawyer says that the only conclusion Mrs. Carley could arrive at was that Mr. named Kittle. And so she packed up her racy was practically united upon the supthings, including the parrot, returned to port of one man for the presidency, though her parents in Orlean, N. Y., and brought the union, to be sure, was not in all cases suit for divorce.

The woes of the poor rich are detailed in some dry statistics given out last week by Appraiser George W. Wanmaker. During the month of March the total value of automobiles imported into this country through New York was only \$127,946.92, or a scant third of the value of automobile importations in March of last year.

The most remarkable falling off is that of precious stones and jewelry. The total value for March was \$389,514.67, about \$3,000,. 500 below the value of diamonds and pearls imported in March, 1907. If the Americans have lost their appetite

in sweets. During the month the importathe same month last year,

PLAY OF POLITICS.

Changes Noted in the Current of Party Affairs.

Washington Post (ind.). A short three months ago there was great joy in the democratic camp over the division in the ranks of the republicans. The latter party seemed split up into several factions. Each of them threatened to fight the others to extermination, while democ a willing one. But democracy was delighted at the prospect of victory. Upon the assurance of a united party against a conglomeration of factions, its cohorts shouted together like a band of college boys at a foot ball match, "Oh, fellows, now's the

But the three months have wrought a change, and those joyous shouts have developed a dubious ring. With the nominating conventions less than three months away, the republican ranks have shifted front and are daily growing more consolidated. Reports tend to show the party is rallying steadily to the support of Mr. Taft or luxuries they are finding consolation or, if not him, displays at least a willingness to concentrate solidly behind some one tion of sugar was 50 per cent more than in of its aspirants for the White House chair. It is gradually, but surely, rounding into unity. Not so with the democrats. Now the fishing from the keeper's pocket a bag of chewing tobacco, thrust it into his mouth and retired to a corner of the cage, annuare of the southerner. The last of these desertions from the leadership of the "Peerless has not yet been written-but as One" much again may happen in another three months

All of which goes to show that what looks so fair in December may not always he radiant with loveliness in July, and that it is not well to fry one's fish until he has caught them. The play of politics rung down and all the lights put out.

BRYANISM AND POPULISM.

St. Louis Convention Viewed by Conservative Democrat.

Philadelphia Record (dem.). populists of Mr. Bryan's own state regard him as one of themselves. This is a very interesting disclosure as the time for the democratic national convention approaches. The populists of Nebraska must be pretty well acquainted with Mr. Bryan. 1894 he was actively consorting with them in the calling of a convention. He dropped out of congress because he could not carry the democratic party into the populist camp. He was a delegate to the democratic national convention in 1896, because in Nebraska the democrats and the populisfa were hardly distinguishable. He has been supported by a considerable part of the populists in his presidential campaigns. The populists of his state made a determined effort to prevent a nomination in St. Louis last week with the idea that if the democratic party nominated populist ticket in the field. They were defeated. a majority of the convention preferring to put up a straight-out populist tie herself for life. The rich young woman are highly instructive. They announced that Mr. Bryan the Nebraska populists would

support him to a man. That Mr. Bryan's views are those of the populists hardly admits of question.

The temporary chairman of this concention of populists was Coxey-still renembered as the leader of his "army." The permanent chairman said in his speech that the country was ripe for a French revolution and it only needed the "genius of a Robespierre and the eloquence of a Danton to set the country in a blaze,' The financial plank in the platform this convention adopted declared in favor of the lasue of irredeemable "fiat" money by the government "direct to the people" and in quantities to suit. The opposition of a majority of the convention to the Nebraska delegation does not seem to have been based upon any difference of opinion with Mr. Bryan, but simply to the determination of the middle-of-the-road populists to maintain their own organization and have a ticket of their own. All of this is highly important to democrats who are going to Denver.

SUNNY GEMS.
